people, as much in the education, being applicable and helpful like a powerful tool in the special education for different pathologies, different types of rehabilitation recovery, reeducation, for the exercise and the cerebral stimulation, acting sometimes like occupational therapy. On top of that, it helps in the coordination, the direction, the situation in the space, and stimulates the participation, among other properties.

Same and other modular boards for 3, 4, 5, 6 or more players are perfectly adapted for the internationally known “ Draughts “, for which they also are protected.

HRH the King and Queen of Spain congratulated me on my inventions in several occasions.

I have received support from or have come into contact with the following Spanish Organizations:

Ministry of Health, Ministry of Education, Ministry of Science and Technology, Ministry of Agriculture, FUNDESCO, INSERSO, SECARTYS, SEREM, CENTRO NIDO, Parents of autistic children Association, national Music Therapy Association, Barcelona Provincial Clinic Hospital, Valle Hebron Hospital, International Institut of Medical Sophrology, University of Barcelona, Barcelona and Madrid Medical Association, Industry and Education Council of Barcelona Generalitat (Catalan autonomous government), García Cabrerizo Foundation etc.

International organizations:

World Health Organisation (O.M.S.), United nations (U.N.O.) UNO CITY, Karl Marx University in Leipzig, London SLEEP Association, etc.

I took part in numerous national and international exhibitions, Symposiums, Conferences, Round-Table meetings. Moreover I have cooperated with companies
